Memorandum # 03 – 2021 Vaccination for Corona Virus- COVID-19

Dear faithful of the Lord,

As at the time of releasing this Memoranda 26.4 million people have tested positive and 446,400 victims have died in USA alone. Globally 101.4 million people have tested positive while 2.2 million deaths have been recorded. This frightening and ruthless phenomenon is unfortunately not abating. This is an evil time of dreadful uncertainties – wisdom and caution are required.

However, to the glory of God, who Himself is the Science, Vaccines with 85% - 95% effectiveness have been developed and approved for emergency application by various countries Health and Medical Authorities.

- ❖ Pfizer Vaccine: two shots with 21 days interval for 16 years and older.
- ❖ Moderna Vaccine: two shots with 28 days interval for 18 years and older.
- ❖ Johnson and Johnson Vaccine: Only one shot.

The approval of these Vaccines were based on the outcome of intensive research work, successful rounds of clinical tests, safety of lives, assurance of health and integrity of science.

Science has spoken, Reports from CDC, European Health and Medical Authorities and World Health Organization – WHO have confirmed and Consultations with Medical Experts have concurred to the efficacy of the Vaccines. Presidents, Head of States, frontline workers and millions of people have taken the vaccine. The common side effects experienced within 3-7days by a number of people after taken it cannot be compared with the exposure to the risk of death if the vaccine is not taken. I have registered with my family members to take the vaccine **but the choice/decision is strictly yours.**

Perhaps I should conclude that the vaccine is not a substitute for social distancing, using your mask, washing your hands, using sanitizers and avoiding large gathering and travelling for now.
