Mr. Michael Alonge  
Editor in Chief  
Celestial News Online  
03/25/2021

Dear Sir,

RE: DISINFORMATION AND LIBELLOUS STATEMENTS AGAINST VSE JO  
OLORUNNISOLA AND THE U.S DIOCESE OF THE CELESTIAL CHURCH OF  
CHRIST

We act as Attorneys to the US Diocese of the Celestial Church of Christ, the Celestial Church of Christ Voice of Grace Parish, Ewing New Jersey and its shepherd, the HOD of the U.S Diocese, VSE JO Olorunnisola.

Our attention has been drawn to several false, reckless, and malicious allegations that have been circulated on several media mostly by members of the larger body of Celestial Church of Christ, against the office and person of the HOD USA Diocese, VSE JO Olorunnisola, the USA Diocese and Celestial Church of Christ, Voice of Grace Parish.

Among the most egregious of these allegations is that the Land for the new Cathedral was purchased with funds from the coffers of the Celestial Church of Christ U.S. Diocese and that the same is also being built with the Diocesan funds.

For the avoidance of doubt, the cathedral and land in question, located at Hedding Rd, Columbus, NJ, is in fact property exclusively purchased and owned by Celestial Church of Christ, Inc. Voice of Grace. The said land was acquired for half a million dollars in 2008, that was a year before VSE JO Olorunnisola became the Head of the Diocese of USA. This fact is buttressed by the tax records of Voice of Grace Parish (New Jersey Tax Office Records accessible through the hyperlink below).

The \$8.5 million project is not only a glorious edifice worthy of the LORD's worship, it also includes a multi-purpose fellowship hall, and other great amenities. It has been an ongoing project for thirteen years.

To be resoundingly clear, this Cathedral project from land acquisition to its current development, has been funded entirely by the generous commitment of the hardworking, God-fearing members of the parish whose love for Christ and belief in His kingdom drives their expenditure and sacrifices, and in no small part, due to the tremendous grace of God, whose voice commissioned the vision and passion for the project. The staunch members of VOG parish should be commended for their exemplary Christianity and not vilified.

VSE JO Olorunnisola, apart from being a man of integrity, and in every sense a true Apostle of Christ, a man who, with every fibre of his being, fears God and eschews evil, is a man who runs a completely transparent administration. The records and Parish accounts are subject to annual review by independent External Auditors, and shared with the congregation quarterly. The books of the church are also open to review by the members of the parish at any time.

Therefore, let it be stated for the record and without disputation, that not a single red cent or kobo belonging to Celestial Church of Christ US Diocese has ever been put into a single beam, plank, nail or stone on the project and land in question.

Furthermore, the baseless and unfounded rumour that has also been circulated, alleging VSE JO Olorunnisola has been seeking the pastor's position because a photograph of a sign on the land has the title of "Pastor" before his name, only further highlights the desperation of a nefarious cabal who would seize upon the naiveté of a people in order to plunder them of truth and righteousness.

The term “pastor” is the equivalent of “shepherd” used in America for the leader of any church or parish. The term “shepherd” is only used and recognized within the C.C.C community to mean the leader of a parish. To the outside world, and general contractors in question overseeing the project, and the various local government agencies with whom the parish is doing business, the leader or head of the parish is simply known and called the pastor. To read more into it than that is simply stretching a simple truth to fit an obese lie. Consequently, to state that the title “pastor” before his name on a sign board installed by the contractor, that has been in plain view for the world to see for 13+ years, exposes a secret ambition for the CCC Pastor’s seat, is entirely baseless, disingenuous, and without merit.

Finally, much has been made of the name on the board which reads “The New Celestial Church of Christ”. Here again, we set the record straight- the term “New Celestial” was printed by the same general contractors overseeing the project simply as a distinguishing landmark symbol between the Voice of Grace parish’s new location versus the old or current location of the parish. Any attempt to draw out some other conclusion or grand plan would be silly and laughable, if it were not so destructively false.

These are the facts of the matter; the truth bears them up, the evidence supports and sustains them, and any assertion to the contrary is not only libellous and inflammatory, but also a bold-faced unrepentant lie, concocted with the sole agenda of discrediting a man who has lived his life in unimpeachable integrity and devotion to God, with ridiculous inventions that bear no evidence, no truths, no goodwill, and no grace.

Consequently, we want to make it abundantly clear that any further reckless, defamatory and libellous statements circulated against my clients will be prosecuted to the full extent of the law and the undersigned will commence appropriate proceedings to seek Justice.

I am available at your convenience to answer any questions that you may have.

Regards,

*Ike Agwuegbo*
